

OBJECTIVE

Analytical Computer Programming and Analysis student with strong skills in SQL, Python, Excel, and data visualization, seeking a Data Analyst role to deliver data-driven insights

HIGHLIGHTS OF QUALIFICATIONS

- Strong analytical and problem-solving skills with the ability to interpret and analyze data effectively
- Proficient in data analysis tools, including Excel, SQL, Python, Power BI, and Tableau
- Experience in data cleaning, transformation, and visualization to generate actionable insights
- High attention to detail with a focus on data accuracy and quality
- Ability to work in fast-paced environments and manage multiple tasks efficiently
- Strong communication and teamwork skills developed through client-facing roles
- Quick learner with a commitment to continuous improvement in technical and analytical skills

TECHNICAL SKILLS

- Programming & Databases: Python (Pandas, NumPy), PostgreSQL, MySQL
- Data Analysis: Excel (Pivot Tables, VLOOKUP, dashboards)
- Data Visualization: Power BI, Tableau
- Data Techniques: Data Cleaning, Transformation, Analysis
- Reporting & Insights: Dashboard Development, Data Tracking, Reporting

EDUCATION

ADVANCED COLLEGE DIPLOMA |Computer Programming and Analysis | George Brown Polytechnic

Sept 2024 – April 2027

- GPA: 3.8
- Built academic projects focused on data analysis, visualization, and reporting
- Applied SQL and Python to analyze datasets and extract meaningful insights
- Developed dashboards using Power BI and Tableau for data-driven decision-making
- Courses include: Data Analysis, Database Systems, Programming, and Data Visualization

PROFESSIONAL EXPERIENCE

ASSEMBLY TECHNICIAN | DL Custom | Markham, On

April 2025 – Present

- Collected and interpreted technical and operational data to ensure accurate assembly and quality control
- Monitored and tracked performance metrics to identify inefficiencies and improve processes
- Analyzed recurring technical issues to determine root causes and implement solutions
- Maintained detailed records of workflows and outcomes to support reporting and continuous improvement
- Collaborated with clients, including IBM and Rogers, to ensure accuracy and successful project delivery
- Improved efficiency by identifying inconsistencies and suggesting process improvements

INTERESTS

- Attending tech meetups, conferences, and networking events
- Participating in coding challenges and exploring new technologies
